

Multi-talented models with compaction control.

Articulated tandem rollers in the 4-5 t class

BOMAG articulated tandem rollers in the 4-5 t class.

BOMAG BW 135 and BW 138 – these new multi-talented models are designed to impress with low operating costs, impressive performance and superb operator comfort. Featuring the BOMAG ECONOMIZER continuous compaction control system, this is the new generation of modern, powerful rollers from the world's market leader in compaction technology.

Low running costs

- ◆ Low diesel consumption: 45 l diesel tank gives 12 operating hours
- ◆ Legendary resale value

BOMAG quality

- ◆ The proven quality of all components guarantees maximum availability
- ◆ High impact-resistant plastic hood
- ◆ Robust operating controls
- ◆ Cable protection with tied wiring looms
- ◆ Kubota diesel engine reliability and highest quality hydraulic components

Operator ergonomics for comfort and safety

- ◆ Spacious operator's platform with total operating, sitting and driving comfort
- ◆ Optimal visibility with lateral shift driving seat
- ◆ Convenience and comfort – travel lever both sides plus armrests
- ◆ This is the quietest machine in its class!
- ◆ Ultra low hand/arm and body vibrations

Ultimate safety

- ◆ Emergency stop; seat contact switch
- ◆ Various reverse travel warning systems (optional)
- ◆ High stability: anti-tip feature gives safe transverse angle up to 30°

Clear view of operating controls, drums edges and tyres.

BOMAG TELEMATIC
inside

Robust and easy to maintain: the wind-protected sprinkler system behind the engine hood and tailgate.

Easy checks: Oil (1), water (2), air (3) – easy to reach, quick to start.

Impressive performance

- ◆ Consistent compaction results on all materials – extra large drum diameter
- ◆ Suitable for all climatic conditions: under full load up to 50°
- ◆ Powerful, mobile, flexible units with 50 mm crab-walk and gradeability up to 35%
- ◆ Continuously productive – large 310 l water tank

High utilisation

- ◆ On asphalt, earthworks and granular materials: as either tandem or combination versions
- ◆ Spring loaded scraper with locking option as standard

Quality control with ECONOMIZER

- ◆ Continuous compaction control – easy operation and precise data in real time
- ◆ Cuts costs – saves time and money by eliminating unnecessary passes
- ◆ Cuts out remedial work – output monitoring including weak-spot identification

Easy servicing

- ◆ Just daily visual inspection without maintenance work – quick, simple, fast.
- ◆ Articulated joint and steering cylinder are maintenance-free
- ◆ Extended hydraulic service intervals
- ◆ Exciter system lubricated for life
- ◆ Remote planning and monitoring when using BOMAG TELEMATIC

BOMAG ECONOMIZER: eliminating guesswork during compaction.
